

Type 0331 can be combined with...

**Type 2508**  
Cable plug

**Type 1078**  
Timer unit

**Type 2511**  
ASI cable plug

The Type 0331 is a direct-acting 3/2-way pivoted armature solenoid valve for sub-base mounting. The magnetic system and the Medium chamber are separated from one another by a separating diaphragm system. The valve is fast acting and has a long service life, even when run dry.

## 3/2-way Solenoid Valve, sub-base

- 3-way solenoid valve with pivoted armature and manual override
- Direct-acting with separating diaphragm
- Fast-acting
- For liquid, gaseous and aggressive Medium
- Long service life, even in non-lube conditions

Technical data	
<b>Orifice</b>	DN 2.0–3.0 mm
<b>Body and seat materials</b>	Brass and stainless steel 1.4401
<b>Coil material</b>	Epoxy
<b>Coil insulation class</b>	H
<b>Seal material</b>	NBR, FKM (EPDM on request)
<b>Medium</b>	Neutral Medium such as compressed air, water, hydraulic oil Hot air Oil and fat-free Medium
<b>Medium temperature</b>	NBR 0 to +80 °C FKM 0 to +90 °C EPDM (on request) – 30 to +90 °C
<b>Ambient temperature</b>	Max. +55 °C (min. temperature see Medium temperature)
<b>Viscosity</b>	max. 37 mm <sup>2</sup> /s
<b>Voltage tolerance</b>	±10%
<b>Duty cycle</b>	100% continuous rating
<b>Manifold mounting</b>	Use reduced duty cycle or 5W coil
<b>Electrical connection</b>	Tag connector acc. to DIN EN 175301-803 Form A (previously DIN 43650) for cable plug Type 2508 (supplied as standard)
<b>Protection class</b>	IP 65 with cable plug
<b>Installation</b>	as required, preferably with actuator upright

Power consumption			
Inrush		Hold (hot coil)	
AC [VA]	DC [W]	AC [VA/W]	DC [W]
30	8	15/8	8

Response times	
AC opening/closing [ms]	8-15
DC opening/closing [ms]	10-20

Measured at valve outlet at 6 bar and +20 °C

Opening: pressure build-up 0 to 90%, closing: pressure relief 100 to 10%

<sup>1)</sup> In DC-versions with orifice 3.0 and 4.0 the orifice diameter is reduced by about 0.5mm.

■ Please be aware that the above valves cannot be used for vacuum

The valves are manufactured with different springs. The valves can be applied also in other circuit functions with respect to different pressure rates. For further information please see separate datasheet.

**i Further versions on request**

**Materials**  
Stainless steel body

**Pressure**  
Vacuum version

**Approvals**  
UL, UR, GL, CGA/AGA, UL Hazardous Locations

**Additional**  
Electrical feedback, version without manual override

**Voltage**  
110/50, coil with 5W power consumption, non-standard voltages
