ProcessPower EP602

Mobile pressure test unit EP602

The new series of electrically-powered test pump units offers a wide range of applications. The pump units are used for hydrostatic pressure testing of all types of components, pipes, pipelines, vessels, cylinders and pressurized installations. Universal use in the plumbing, heating, solar and sprinkler installation, compressed air systems, steam and cooling systems, oil installations, as well as hydraulic systems for boilers, pressure vessels and fittings as well as on construction sites. Functional and ergonomic handling are outstanding features of these compact and reliable pump units.
