

SEALING COMPOUND 1249

Equivalent MMZ TYP11

SEALING COMPOUND 1249

Applicable Industries: Petroleum, Petrochemical, Chemical, Fertilizer, Pharmaceutical, Nuclear Power Plant, Pulp and Paper, Steel, Offshore, Power Generating, Food, Ship Building, Water and Heat Supplies, Synthetic Fiber, Coal Gas, Hydrocarbon Preservation and other more process plants.

• **Used for :**

ACIDS (Flanges with Gap injected , enclosures stuffing boxes.)

Characteristic	Product	Packaging
<p>BASIC COMPOSITION: Anti acid sand , P.T.F.E Max pressure 120 bar Max temperature 260°C Min temperature -150°C</p>   <p>Mid fluidity , filler 75 micron</p>	1249	<p>CAN</p> <p>Content 10 sticks</p> 

Application

Can be used for acids.

Compound produced with P.T.F.E

- Acids*
- Lyes / caustics*
ph 1 - 14

applicable for flanges, pumps, piping, boilers, heat exchangers , boxes, etc.
