

SC600 Electronic Counting Scale/Balance

Professional electronic counting and weighing scale with load cell transducer for high accuracy and performance. Wide capacity measuring single small electronic component weighing 0.005oz (0.1g) or batches up to 21.164oz (600g). Optional software available for generating reports and documentation of inventory components.

Features

- Wide measuring capacity up to 600g (21.164oz)
- Gram or Ounce measurement selectable by internal slide switch
- $\pm 0.05\%$ accuracy with 0.01g and 0.0005oz resolution
- LCD display with 0.8" (20.9mm) easy-to-read digits
- Built-in self-calibration system using traceable weights
- High precision counting function with preset counting sampling number selection of 10pcs, 20pcs, 50pcs, or 100pcs
- TARE function to set the scale to zero
- Built-in bubble level with adjustable rubber pads
- RS-232 interface (optional 407001 software with cable)
- Dimensions:
Base: 9.8 x 7.5 x 2.8" (250 x 190 x 70mm)
Platform Diameter: 4.7" (120mm)
- Weight: 2.2lbs (1kg)
- Complete with 6 AA batteries, metal platform, and Universal AC adaptor with multi-plugs
