

LGHP 2 Grease

LGHP 2 is a premium quality mineral oil based grease, using a modern Polyurea (di-urea) thickener. It is suitable for electric motors and similar applications.

Characteristic	Product Name	Packaging
NLGI consistency class Thickener Colour Base oil type Operating temperature range Base oil viscosity 40 °C, Mechanical stability Roll stability, 50 hrs at 80 °C, 10–1 mm	2–3 Di-urea Blue Mineral –40 to +150 °C mm ² /s 96 365 max.	LGHP 2 1000 gr . CAN

Application

- Electric motors: Small, medium and large
- Industrial fans, including high speed fans
- Water pumps
- Rolling bearings in textile, paper processing and drying machines
- Applications with medium and high speed ball (and roller) bearings operating at medium and high temperatures
- Clutch release bearings
- Vertical shaft applications
- Kiln trucks and rollers
