DSE Installation Instructions ACCESSING THE MAIN CONFIGURATION EDITOR (\mathbf{O}) Ensure the engine is at rest and the module is in STOP mode by pressing the Editor • (Stop/Reset) button Enter Pin 0 (Stop/Reset) and (Tick) buttons simultaneously. #### Press the If a module security PIN has been set, the PIN number request is then shown: 0 000 0.00 O (Down) button to adjust it to the correct value The first '#' changes to '0'. Press the 0 (Up) or 0 00 0 Press the Repeat this process for the other digits of the PIN number. Press the . digits. OOO 0 When the the PIN must be re-entered. If the PIN has been successfully entered (or the module PIN has not been enabled), the editor is Editor - Display displayed: Contrast EDITING A PARAMETER 53% Enter the editor as described above. 0 (Right) or 0 (Left) buttons to cycle to the section to view/change Press the 0 0 000 000 0 0 Press the (Up) or 0 000 0 To edit the parameter, press the 0 0 000 000 0 0 (Down) buttons to change the parameter to the required value. Press the (Up) or 0 000 0 (Tick) button to save the value. The parameter ceases flashing to indicate that it has been saved. Press the 0 To exit the editor and save the changes, press and hold the (Tick) button. To exit the editor and not save the changes, press and hold the (Stop/Reset) button. **A**NOTE: If the editor is left inactive for the duration of the LCD Page Timer, it is automatically exited to ensure security.

ANOTE: The PIN number is automatically reset when the editor is exited (manually or automatically) to ensure security.

ANOTE: Comprehensive module configuration is possible using the DSE Configuration Suite PC Software, refer to DSE publication 057-243 DSE7310 MKII & DSE7320 MKII Configuration Suite PC Software Manual available from www.deepseaplc.com.

DSE7310 MKII & DSE7320 MKII

DEEP SEA ELECTRONICS

- (Right) button when the first digit is correctly entered. The digit previously entered now shows '#' for security.
- C (Left) button to move back to adjust one of the previous
- (Tick) button is pressed after editing the final PIN digit, the PIN is checked for validity. If the number is not correct.
- - (Down) buttons to select the parameter to view/change within the currently selected section.

(Tick) button to enter edit mode. The parameter begins to flash to indicate editing.

MAIN CONFIGURATION EDITOR PARAMETERS

ANOTE: Depending upon module configuration, some values in the Main & Running Configuration Editors may not be available. For more information refer to DSE publication 057-243 DSE7310 MKII & DSE7320 MKII Configuration Suite PC Software Manual available from www.deepseaplc.com

DIMENSIONS AND MOUNTING

For flat surface mounting in a Type 1 enclosure to meet UL requirements

DIMENSIONS

245 mm X 184 mm X 51 mm (9.6" X 7.2" X 2.0")

PANEL CUTOUT

220 mm X 160 mm (8.7" X 6.3")

WEIGHT

0.98 kg (2.16 lb)

ACCESSING THE 'RUNNING' CONFIGURATION EDITOR

- The 'running' editor can be entered while the engine is running. All protections remain active if the engine is running while the running editor is entered.
 - 000
- Press and hold the
 (Tick) button to enter the running editor.

EDITING A PARAMETER

• To exit the editor and save the changes, press and hold the 🔹 (Tick) button.

RUNNING CONFIGURATION EDITOR PARAMETERS
