

**NOW SELF-POWERED**

# AUTOSTROKE™

The AutoStroke is designed to increase efficiency and simplify operation of the AutoBox ABX-2L and ABX-3L in applications with plugged tubes.

The AutoStroke senses when a nozzle has hit a blockage and activates an automatic forward and reverse pecking motion that allows the jets to maintain rotation and effectively break through obstructions without operator intervention. This produces optimal cleaning and saves money by reducing wear on your AutoBox components, Banshee tools, and high pressure flex lances.

## FEATURES:

- Quick install to your existing AutoBox ABX-3L or ABX-2L
- Automated forward and reverse tool motion to clear obstructions
- Adjustable sensitivity for changing job conditions
- Adjustable retract distance allows nozzle to regain rotation
- Self-powered operation – no batteries or power cords

## SPECIFICATIONS

|                   |   |
|-------------------|---|
| <b>DIMENSIONS</b> | 16.9 x 11.7 x 7.9 in.<br>429 x 297 x 201 mm |
| <b>WEIGHT</b>     | 18 lb 8.2 kg                                |

**BANSHEE HEAD CONTACTS BLOCKAGE AND STOPS ROTATING**

**AUTOSTROKE 'SENSES' BLOCKAGE AND PULLS HOSE BACK SLIGHTLY TO REGAIN HEAD ROTATION**

**HEAD REGAINS NORMAL ROTATION AND HOSE FEED CONTINUES**
