

NGS 500/L

Our most economical, light synthetic lubricant is ideal for commissioning new pipeline valves. Use in ball, gate and plug valves with little to no wear, as well as orifice fittings.

Ideal for year-round use and in all climates.

Product Specification

Base Oil	Synthetic
Colour	Light Brown
Texture	Tacky
ASTM Penetration	min 170 in Bulk form min 80 in Stick form
Drop Point	None
Compatibility	Excellent
Solvent Resistance	Excellent
Special Additives	Lubricity Agent
Composition	Semi liquid to Stick Grade
Temperature Range	-24 °C to +240°C
