

# NGS LECTRA CLEANER

NGS Lectra Clean is a non-flammable heavy-duty evaporating cleaner and degreaser for use on electric motors and other heavy-duty electrical and mechanical equipment. The stabilised fast-acting solvent blend effectively removes wax, grease, oil, dirt, moisture and foreign matter that are common causes of current leakages and electric inefficiencies. It minimises downtime by cleaning low-voltage motors and equipment while in operation.

Characteristic	Product	Packaging
<ul style="list-style-type: none"><li>• <b>Non-flammable, no flash point</b></li><li>• <b>Can be used on energised equipment</b> – Minimises downtime, spray on while in use</li><li>• <b>Rapid and complete evaporation</b> – Leaves no residue, no rinsing or wiping required</li><li>• <b>Quickly penetrates into hard-to-reach areas</b></li><li>• <b>Ideal for preparing surfaces for further treatment</b> – Prior to anti-corrosive coating, painting, pre-assembly degreaser</li><li>• <b>Ideal for cleaning water and contaminants from flood damaged equipment</b></li><li>• <b>Chemically stable, inert</b></li> <li>• <b>Non-conductive</b></li><li>• <b>Non-corrosive</b></li><li>• <b>Contains no lubricants, silicones, oils</b></li> <li>• <b>May be harmful to some plastics</b></li></ul>	<b>Lectra Cleaner</b>	<b>CAN</b>  <b>1000 ml</b>  

## Uses

- Electric motors , Generator and transformer windings , Marine and industrial engines
- Surfaces prior to anti-corrosive coating , Mechanical and electrical parts
- Cables and wires , Industrial and laboratory equipment
- Antenna insulators , Coils , Fuse holders
