

## Literature

The H5CX information is included in the new Timer/Counter catalog. It is also available in pdf format (document L101-E3-1A) on Omron's [www.knowledge.omron.com](http://www.knowledge.omron.com) website under Timers.

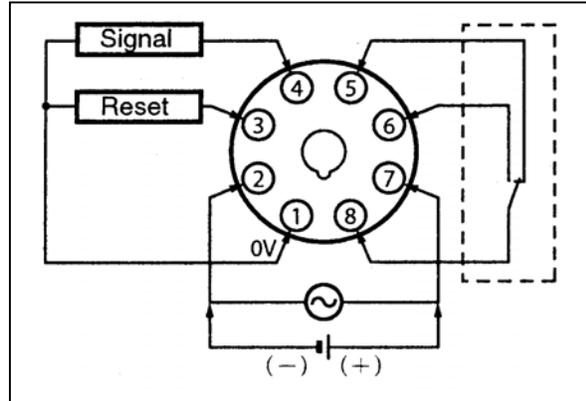

## Additional Information

### Terminal Arrangements

H5CR-L

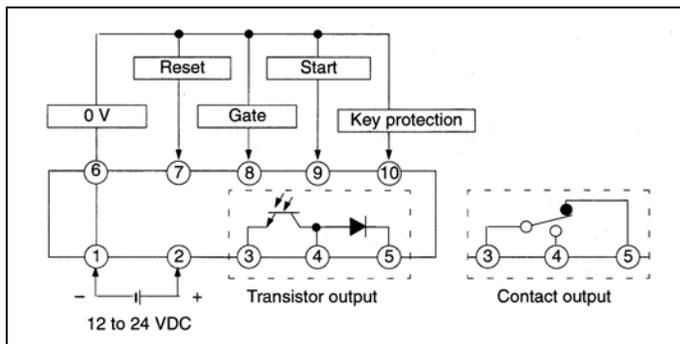

H5CX-L8

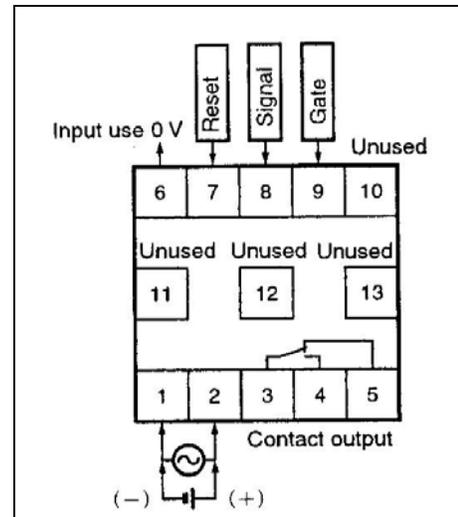

### Pin-for-Pin Replacement

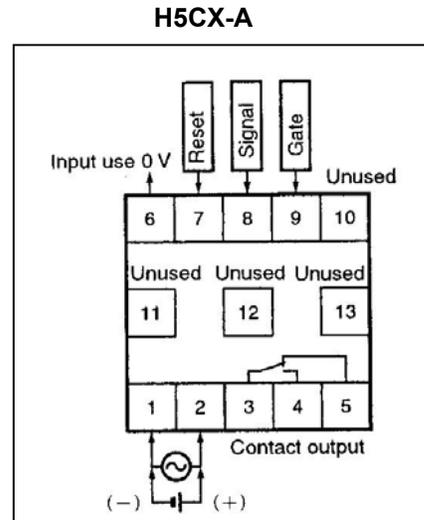

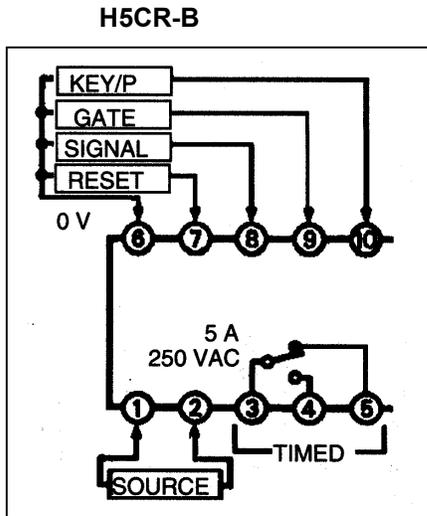

H5CR-S

H5CX-AD

No terminal for 'key protection' on H5CX,  
Which is on the top of the body.

No terminal for 'key protection' on H5CX, which is on the top of the body.

## Product Comparisons

Model	H5CR-B	H5CX-A	
Supply voltage	AC100-240V DC12-24V	AC100-240V AC24V/DC12-24V	
Input signal	No-voltage signal	No-voltage/voltage signal selection	
Output modes	A, B, D, E & F	A, B, D, E, F & Z	
Timing ranges	0.001s to 9999h	0.001s to 9999h	
On-board power supply	None	None	
Character height	(PV)	8 mm	11.5 mm (red/green)
	(SP)	4 mm	6 mm (green)

Model	H5CR-B	H5CX-A
Appearance		
Display (PV)	4 digits, backlit LCD 8 mm high	4-digits, red/green backlit LCD 11.5 mm high
Power (AC)	AC100-240V	AC100-240V
Power (DC)	DC12-24V	AC24V/DC12-24V
Input signals	Start, Gate, Reset, Key protect.	Start, Gate, Reset
Signal input	No-voltage	No-voltage or voltage (selectable)
Timer modes	Up or Down (selectable)	Up or Down (selectable)
Time ranges	0.001s to 9999h (10 ranges)	0.001s to 9999h (10 ranges)
Output modes	A, B, D, E and F	A, B, D, E, F and Z
One-shot	0.1s, 0.5s, 1s, 5s, 10s, 15s, 20s	0.01s to 99.99s variable
Outputs	5A Relay or Transistor	5A Relay or Transistor
Approvals	UL, CSA, CE, IP54	UL508, CSA, CE, NEMA4, NEMA B300
List Price	\$177-\$189	\$118-\$146

## **Phase In/Phase Out Strategy**

Stock levels of the H5CR series will be gradually reduced as the demand decreases, they will be set to zero sometime before the discontinuation date of **March 31, 2004**.

Prior to the discontinuation date, the stock levels of the replacement H5CX models will be raised to reflect the heightened demand.
