

**Features:**

- 19,999/1,999 counts dual LCD display
- Analog Bar display
- Mini USB port connect to PC(only for VA<sup>o</sup>Y·B)
- AutoLCR smart check and measurement
- Parameters : Ls、Lp、Cs、Cp、DCR、ESR、D、Q and  $\theta$
- Relative measurement
- Data hold
- Backlight

**Specifications:**

Capacitance: 200pF~2mF  
 Inductance: 20uH~200H  
 Resistance: 20W~200MW  
 Frequency: 10/(20/K)/100KHz

Main display parameters:

DCR : DC Resistance  
 Ls/Cs : Inductance/Capacitance in series mode  
 Lp/Cp : Inductance/Capacitance in parallel mode

Sub display parameters:

$\theta$  : phase angle  
 ESR : equivalent series resistance  
 D : dissipation factor  
 Q : quality factor
